

BIOGRAPHY: DAVID BAYLISS

1984: Graduated The [Victoria] Manchester University with B.Sc. (Hons)

1984 – 1988: Research Assistant / Ph.D. Student at The University of Leicester

1988 – 1993: Area Manager, Galen Pharmaceuticals, Craigavon

1993 – PRESENT: Partner of 'I.G.S.' (Industrial Gas Safety). IGS was created with the express intention of providing [sub-contract] customer safety training for BOC Gases via Gas Safe Consultants (aka BOC Safety Training Workshops). This relationship ended Jan 2000 and IGS continued as an independent (& cost-effective) training provider of: Cylinder [Compressed] Gas Safety, Cryogenic Gas Safety, Hot Work Risk Assessment, Hot Environments Working Assessment & Control, etc.

2000 – PRESENT: Technical Manger of: www.the-gas-safety.co (A Division of BJ Industries Ltd.) and formerly known as: gas-safety.uk until re-branding in June 2013. This entity enabled me to develop products relating to gas safety (EasiDaptor, liq. N2 decanting mat, flow-stopper, etc.), and project-sized solutions (manifolds, pipelines, gas detection systems, etc.).

INTERESTS: Family, house-work, cooking, dog-walking & trying not to worry.
